📍 Tehran, Iran

Summary

I graduated from the Isfahan University of Technology with a degree in mechanical engineering. Working with laboratory data made me interested in data science and analysis. Financial activity and the importance of big data have increasingly prompted me to learn and analyze data. I am still engaged in personal learning and studies in this field and I am extremely eager to gain work and gain experience in the field of artificial intelligence and data science.

Research Interests

- Machine Learning
- Deep Learning
- Computer Vision
- Natural Language Processing
- FinTech

Education

Isfahan University of Technology

B.SC. IN MECHANICAL ENGINEERING

- One of Iran's 5 top universities.
- Selected courses: Fundamentals of Programming (16.2/20), Calculus I (18.9/20), Calculus II (18.3/20), Differential Equations (18.5/20), Engineering Mathematics (17/20).

Isfahan, Iran

September, 2015

-

February, 2020

Allameh Helli High School

DIPLOMA IN MATHEMATICS AND PHYSICS DISCIPLINE

- Affiliated with the National Organization for the Development of Exceptional Talents.

Tehran, Iran

October, 2011

-

September, 2015

Online Courses

- Probability and Statistics in Engineering by Sharifi-Zarchi (at maktabkhooneh.org). [audited]
- Introduction to SQL (at datacamp.com). [certified]
- Machine Learning with Python by Jodi (at maktabkhooneh.org). [certified]
- Machine Learning by Andrew Ng (at coursera.org). [audited]
- Deep Learning Specialization by Andrew Ng (at coursera.org). [certified]

Projects

[ML projects with python](#)

- Predicting house prices (A regression project).
- Classifying heart attack (A binary classification project).
- Customer segmentation (A clustering project).
- Movie recommendation system (A recommendation system project).

2022

[My Journey into Deep Learning](#)

- CIFAR-10 Image classification using simple CNN and MobileNetV2.

2022

Skills

Data Science:	Python3 (scikit-learn, Pandas, NumPy, Matplotlib), SQL, Machine Learning, Deep Learning.
Tools:	Git, Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Adobe Premiere Pro.
Operating Systems:	Windows.
Soft Skills:	Teamwork, Easily Adaptable, Critical Thinking, Writing Skills, Presentation Skills, Report Writing, Self-Management, Self-Awareness, Responsibility.
Languages:	English(Fluent), Persian(Native).
